### Students Completion of

#### Academic Course Work

- OCTH 695: Occupational Therapy Fieldwork Level II Education: 24 Credits Min.

### Progress to Fieldwork II

### Explanation of Fieldwork (FW)

**Fieldwork Level I Education:** ACOTE requires student’s to complete a minimum of 40 credit hours of Fieldwork Level-I. Typically these requirements are met as part of the students’ performance in the advanced theory and practice courses. **The courses in which FW I are completed appear highlighted in bold above.**

**Fieldwork Level II Education:** [OCTH 695] is the advanced fieldwork placement. Students must successfully complete all seven quarters of academic coursework before advancing to FW II. Students must successfully complete a minimum of 6 months full time FW II for a total of 24 credits. Likewise, FW Level-II must be completed within 24 months of successful completion of academic coursework.

**Total Duration of Degree Program:** If the academic coursework and advanced Fieldwork Level II experiences are completed within the lock-step sequence, the duration of the program is a total of 9 Quarters. At the end of successful academic coursework and FW II, students receive their Master’s of Occupational Therapy Degree and are qualified to sit for the National Board exams. Requirements to practice as an occupational therapist in the United States include passing the NBCOT exam and meeting the practice requirements of the state in which the student chooses to practice.
