The university capstone requirement can be met by the department capstone course, PSYC 490 Senior Capstone: The Tradition of Psychology (6). Required courses are designed to provide students with the foundations of the field. Through careful planning in the selection of cluster and elective courses, students may develop a program of study to prepare for application to graduate school programs or meet specific career goals in psychology-related business/human services occupations.

**Capstone Course:** The university capstone requirement can be met by the department capstone course, PSYC 490 Senior Capstone: The Tradition of Psychology (6).

**Required courses are designed to provide students with the foundations of the field. Through careful planning in the selection of cluster and elective courses, students may develop a program of study to prepare for application to graduate school programs or meet specific career goals in psychology-related business/human services occupations.**

**Note:** two years of a single high school foreign language or one year of a single college level foreign language is required.

**Note:** students must attain a grade 2.0 for each of the required courses.

**Required Prerequisite Course** (5 credits)
PSYC 100 General Psychology (5)

**Required Courses** (15 credits)
CSBS 320 Introductory Statistics for the Social Sciences (5)
PSYC 309 Scientific Principles of Psychology (5)
PSYC 313 Research Methods in Psychology (5)

**Focus Experience Courses**—students choose from any combination of the following (3 credits minimum)
PSYC 395 or PSYC 495 Internship*
PSYC 398 or PSYC 498 Seminar
PSYC 399 or PSYC 499 Directed Study*

*instructor’s permission required.

**Required Cluster Credits**—PSYC majors are required to take a specified number of courses from clusters A and B as follows:

**Cluster A** (19–20 credits)
Core Courses—students are required to take at least four of the following courses.
PSYC 301 Theories of Personality (5)
PSYC 302 Abnormal Psychology (5)
PSYC 303 Foundations of Psychotherapy (5)
PSYC 305 Child and Adolescent Development (4)
or PSYC 306 Adult Development (4)
PSYC 316 Human Memory and Cognition (5)
PSYC 324 Conditioning and Learning (4)
PSYC 340 Emotion and Emotional Intelligence (5)
PSYC 381 Social Psychology (5)
PSYC 420 Biological Basis of Behavior (5)
PSYC 474 Cultural Psychology (5)

**Cluster B** (11–15 credits)
Applied/Lab and Specialty Courses—students are required to take at least three of the following courses.
CSBS 321 Computer Aided Data Analysis (4)
PSYC 314 Tests and Measurements (5)
PSYC 317 Health Psychology (5)
PSYC 318 Computerized Research Techniques in Psychology (4)
PSYC 322 Drugs and Behavior (5)
PSYC 325 Cognitive and Behavioral Change (4)
PSYC 331 Psychology of Women (4)
PSYC 359 Human Sexuality (5)
PSYC 421 Care and Custody of Female Offenders (5)
PSYC 425 Psychology and the Legal System (5)
PSYC 427 Psychology of Intimate Relationships (5)
PSYC 430 Human Psychophysiology (5)
PSYC 431 Stress and Coping (3)
PSYC 433 Introduction to Compassion Focused Therapy (3)
PSYC 440 Happiness and Positive Psychology (5)
PSYC 450 Trauma: Theory, Assessment and Treatment (4)
PSYC 452 Social Influence (4)
PSYC 470 Childhood Psychopathology and Treatment (5)
PSYC 481 Prejudice and Stereotyping (5)
PSYC 483 Group Dynamics (5)
PSYC 496 Experimental Course (1–5)
PSYC 497 Workshops, Short Courses, Conferences (1–5) may be counted as a cluster course or elective as approved by the department chair.

**Electives** (17 credits)
Note: courses used as electives in the major must come from the Cluster A or B course list above (those not used to meet the minimum cluster requirements) or as approved by the department chair.

**Minimum total credits for above major** 70 credits
## BACHELOR OF SCIENCE (BS)

**Student Learning Outcomes** — students will:

- develop ethical and evidence-derived decision-making;
- use APA style effectively in empirically based reports, literature reviews and theoretical papers;
- recognize and understand major perspectives of psychology;
- evaluate the appropriateness of design, statistical analyses and conclusions derived from psychological research;
- demonstrate understanding of psychological phenomena from a life-span perspective.

### APPLIED DEVELOPMENTAL PSYCHOLOGY MAJOR

The Bachelor of Science in Applied Developmental Psychology prepares students for entry-level work and graduate study in a variety of developmental and human service careers. The program covers basic areas of human developmental psychology across the life span with a special focus on processes and principles of developmental change. Elective packages may be chosen to focus preparation toward attainment of individual student objectives such as child development interventions, pre-counseling, graduate study and others.

#### Required Courses (39 credits)

GRADUATE PROGRAMS

Graduate study in psychology provides the student with advanced preparation for practice in the field or for entering doctoral-level programs in psychology. Each degree program addresses the changing nature of society and professional requirements. The degree programs available through the Department of Psychology are: Master of Science in Counselor Education with emphases in either Mental Health Counseling or School Counseling; Master of Science in Psychology with concentrations in either clinical or general/experimental psychology; and Educational Specialist in School Psychology. A Post-Master’s Certificate in School Psychology and a School Counselor Professional Certificate are also offered.

Admission Requirements

A. Each student shall complete, before the awarding of the EdS and master’s degrees, a portfolio, which demonstrates the competence of the student graduate level work in school psychology. Portfolios will reflect knowledge and skills in the National Association of School Psychology Domains of Training and Practice.

B. Students will begin their portfolio in the first year through the Professional School Psychology courses and will have a formal interview with School Psychology faculty members in the second or third quarter of their second year in the program to serve as preliminary feedback and determination of preparation for the internship experience. An oral examination that will focus primarily on the portfolio but may also include questions regarding professional practice and the internship experience will be held at the end of the third year of the program. The final oral examination will be open to all interested faculty and students and may be open to questions by outside members at the discretion of the committee. Final oral examinations will not be held over vacation periods or during summer quarter except by advance approval of the committee chair, second member and graduate office representative. The final oral examination will not be over two hours.

C. All graduate students in the School Psychology Program are subject to the academic advancement policies of Graduate Studies regarding grades.

Financial Aid

Financial Aid and Scholarship Office
Eastern Washington University
102 Sutton Hall
Cheney, WA 99004-2447

A limited number of graduate assistantships are awarded to students of outstanding promise. Duties assigned graduate assistants involve 20 hours per week in tasks which meet the needs of the school and the student.

Loans, work-study jobs and scholarships are available to eligible students through the university’s Office of Financial Aid.

Some fellowships and financial assistance may be available through the College of Social & Behavioral Sciences and Social Work.

Apply for financial aid no later than February 15. Application and financial files should be completed as soon after January 1 as possible for the following year. Do not wait until admission is granted.

EDUCATIONAL SPECIALIST IN SCHOOL PSYCHOLOGY (EdS)

Susan Ruby, Program Director  509.359.6050  sruby@ewu.edu

Admission Requirements/Preparation

Early consideration deadline for completed applications is January 15. All application materials must be received by March 1 for consideration of admission for a fall start. Students ordinarily begin their graduate studies fall quarter. Admission to begin the program in winter or spring is discouraged.

1. Must have a GPA ≥3.0 in the last 90 quarter or 60 semester-graded credits.

The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences and other relevant factors.

2. Must meet the requirements of the Graduate School.

3. Must submit application to the Department of Psychology for the School Psychology Program, vita/résumé, and a letter of introduction and intent (not to exceed three pages) for admission to the School Psychology EdS.

4. Must send three letters of recommendation to the Department of Psychology.

5. Must have a bachelor’s degree in psychology or its equivalent. Ordinarily, the applicant’s transcript must show evidence of courses in the following areas: scientific principles of psychology, inferential statistics, learning and personality theory; abnormal psychology; life span development, physiological psychology, history and systems in psychology and general/experimental psychology. Accepted applicants whose transcripts are lacking some areas of proficiency may be asked to complete appropriate courses prior to full acceptance to the program.

6. Must submit scores for the Graduate Record General Examination (GRE) Test. The GRE must have been taken no more than five years before the date of application.

7. It is expected that a student complete all of the requirements for admission to the Graduate School and the Department of Psychology before registering for core classes.

School Psychology: early consideration January 15, deadline March 1, (2) Graduate Studies Office applications, (1) department application, (2) official transcripts, (3) letters of recommendation, (1) cover letter/ personal statement, (1) résumé/vita, GRE scores (within five years of application)

Applicants may be invited for a personal interview once applications have been reviewed.

Students accepted will be notified of a general information meeting held preceding the beginning of their first quarter, to provide orientation to institutional and departmental procedures and to provide information about registration.

Student Learning Outcomes—students will:

- know the history and foundations of school psychology; multiple service models and methods; ethical, legal and professional standards; and other factors related to professional identity and effective practice as school psychologists;
- know the varied models and methods of assessment and data collection for identifying strengths and needs, developing effective services and programs and measuring progress and outcomes;
- know the varied models and strategies of consultation, collaboration and communication applicable to individuals, families, groups and systems and methods to promote effective implementation of services;
- understand school and systems structure, organization and theory related to evidence-based practice;
- use data-based-decision making to design, implement and evaluate academic, social, emotional and behavioral programs for students at all levels of need.

This program is fully approved by the National Association of School Psychologists (NASP). We adhere to a scientist-practitioner model that prepares students for practice as a school psychologist. Candidates graduating from our program are prepared to receive a Residency Certificate in School Psychology from Washington’s Office of Superintendent of Public Instruction (OSPI) and to become nationally certified school psychologists (NCSP). Coursework, practica and internship are aligned with state and national certification and training standards. Specific areas of training include student and program evaluation (i.e., measurement principles); development of academic and social-behavioral intervention plans (i.e., instructional and behavioral analysis, consultation and counseling); and research (i.e., methods and statistics). The program adopts a preventive focus by training candidates to assess and intervene at the school-wide and at-risk group level. Knowledge and skills are developed through integrated coursework, field experiences and internship. The program duration is three years.

Prerequisites

A bachelor’s degree in psychology or its equivalent is required. Successful completion of undergraduate coursework in child or life-span development, learning, research, measurement and statistics is required. Faculty will evaluate each applicant on an individual basis to determine prerequisite needs.

Required Courses

PSYC 505 Applied Learning Theory and Behavior Modification (4)  
PSYC 507 Theories of Human Development (4)  
PSYC 510 Professional School Psychology I (4)  
PSYC 511 Professional School Psychology II (4)  
PSYC 512 Professional School Psychology III (4)  
PSYC 523 Academic and Social/Behavioral Interventions (4)  
PSYC 526 Academic Assessment for School Psychology (4)  
PSYC 531 Psychoeducational Groups for Children and Adolescents (4)  
PSYC 532 Advanced Research and Statistics I (4)
To be considered for the program, students:

1. must have a GPA ≥3.0 in the last 90 quarter or 60 semester-graded credits. The Graduate Admission Committee may recommend a limited number of students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences and other relevant factors;
2. must meet the requirements of the Graduate School;
3. must submit program-specific application to the Department of Psychology on program specific reference form;
4. must complete either: (a) a master’s or other graduate degree in psychology, education or a closely related field or its equivalent or (b) a bachelor’s degree and at least three years of full-time experience teaching in school or (c) a bachelor’s degree and at least five years of relevant professional experience in a closely related field;
5. students with bachelor's degrees must submit scores for the Graduate Record General Examination (GRE) Test—students with master's or other graduate degrees do not need to submit GRE scores;
6. it is expected that a student complete all of the requirements for admission to the Graduate School and the Department of Psychology before registering for classes.

Minimum total credits for admission to the Graduate School: 104 credits

EDUCATIONAL SPECIALIST IN SCHOOL PSYCHOLOGY RESPECIALIZATION (EdS) (Online)
Jamie Chaffin, Program Director | 509.359.4736 | jchaffin@ewu.edu

This online-hybrid distance-learning program is designed for working professionals with a master’s or other graduate degrees or a bachelor’s degree and professional experience. It is offered through online coursework with synchronous and in-person training requirements. Appropriate candidates for the program are educators or those working in an education, counseling or psychology-related field with several years of experience.

Admission Requirements/Preparation

Early consideration deadline for completed applications is January 15. All application materials must be received by March 1 for consideration of admission for a summer start. The application file must be complete by March 1st for you to be considered for an interview. All interviews will be conducted via video conferencing. The equipment needed for the interview consists of a web-camera (can be internal to your laptop or external), a headset with a microphone and a wired Internet connection (wireless tends to be slower and could impact either the video or audio component of the transmission).

To be considered for the program, students:

- must have a GPA ≥3.0 in the last 90 quarter or 60 semester-graded credits.
- must send three letters of recommendation to the Department of Psychology on program specific reference form;
- must complete either: (a) a master’s or other graduate degree in psychology, education or a closely related field or its equivalent or (b) a bachelor’s degree and at least three years of full-time experience teaching in school or (c) a bachelor’s degree and at least five years of relevant professional experience in a closely related field;
- students with bachelor's degrees must submit scores for the Graduate Record General Examination (GRE) Test—students with master's or other graduate degrees do not need to submit GRE scores;
- it is expected that a student complete all of the requirements for admission to the Graduate School and the Department of Psychology before registering for classes.

Minimum total credits for admission to the Graduate School: 104 credits

Student Learning Outcomes—students will:

- know the history and foundations of school psychology; multiple service models and methods; ethical, legal and professional standards; and other factors related to professional identity and effective practice as school psychologists;
- know the varied models and methods of assessment and data collection for identifying strengths and needs, developing effective services and programs, and measuring progress and outcomes;
- know the varied models and strategies of consultation, collaboration and communication applicable to individuals, families, groups and systems and methods to promote effective implementation of services;
- understand school and systems structure, organization and theory related to evidence-based practice;
- use data-based-decision making to design, implement and evaluate academic, social, emotional and behavioral programs for students at all levels of need.

We adhere to a scientist-practitioner model that prepares students for practice as a school psychologist. Candidates completing our program are prepared to receive a Residency Educational Staff Associate (ESA) Certificate in School Psychology from Washington's Office of Superintendent of Public Instruction (OSPI). Students are encouraged to seek national certification through preparation of individual portfolios. Coursework, practica, internship, and portfolio expectations are aligned with state and national training standards. Specific areas of training include student and program evaluation (measurement principles); development of academic and social-behavioral intervention plans (e.g., instructional and behavioral analysis, consultation and home-school collaboration); and research (methods and statistics). The program adopts a preventive focus by training candidates to assess and intervene at the school-wide and at-risk group level. Knowledge and skills are developed through integrated coursework, field experiences and internship. The program duration is two full calendar years, beginning in summer.

Technology requirements for participation: high bandwidth required; access should be through a direct Internet connection (not wireless); computer and browser requirements should follow program recommendations, webinar; headset with microphone and access to a scanner or printer that scans. Full participation throughout the web-conferencing activities and inter-residence training is required to participate.

Required Courses

Note: successful completion of the National School Psychology Certification Examination and an oral examination that reviews the portfolio project and contents is required.

PSYC 505 Advanced Research and Statistics I (4)
PSYC 510 Professional School Psychology I (4)

MASTER OF SCIENCE IN COUNSELOR EDUCATION

Keely Hope, Program Director | 509.359.2439 | khope@ewu.edu

All application materials must be received by February 1 for consideration of admission for a fall quarter start. Students applying should follow the procedures for general admission to the EWU Graduate Studies office.

In addition, the following requirements should be met:
1. must meet the requirements of the EWU Graduate Studies office. The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences, and other relevant factors;
2. a student is eligible for consideration for admission to the Department of Psychology programs by having obtained a GPA ≥ 3.0 for the last 90 quarter or 60 semester graded credits;
3. completion and submission of the Graduate Record Examination (GRE) must be accomplished in time for scores to reach the department by the deadline; the department accepts scores on tests taken within five years of application;
4. applicants who have submitted all requested application materials, postmarked by the deadline date may be invited for a personal interview once the admissions committee has reviewed the application;
5. individuals whose application materials are not postmarked by the application deadline will only be reviewed at the discretion of the admissions committee;
6. application requirements: Graduate Studies Office application, two official transcripts, one department application, three letters of recommendations, one cover letter and resume, one personal statement and GRE Scores.

The Department of Psychology offers a nationally recognized program of studies in counselor education. The program is made up of a theoretical, applied and research-based core curriculum aimed at developing professional counselors who meet national, regional, and state certification standards. The program offers two emphases: Master of Science in Counselor Education: Mental Health Counseling; and Master of Science in Counselor Education: School Counseling.

The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a nationally-recognized specialized accrediting body, has conferred accreditation on the Master of Science in Counselor Education: Mental Health Counseling emphasis and Master of Science in Counselor Education: School Counseling emphasis.

Selection Criteria
In addition to general university and departmental requirements, it is desirable to have a BA or BS degree in a behavioral science or human services area. It is not necessary to have a teaching certificate to enter the School Counseling track. Coursework in adjustment, counseling techniques, evaluation, group dynamics, personality theory and abnormal psychology is recommended. A course in statistics is needed. Curricular experiences and demonstrated knowledge in each of the eight common core areas are required of all students in the program. The eight common core areas are identified in the CACREP accreditation standards as follows: (1) Professional Identity, (2) Social and Cultural Diversity, (3) Human Growth and Development, (4) Career Development, (5) Helping Relationships, (6) Group Work, (7) Assessment, (8) Research and Program Evaluation. The precise course titles vary from time to time.

A FBI fingerprint check will be required of all counseling students at the beginning of their first quarter in the program. The fee for this check is presently approximately $45 for students admitted to the Mental Health Counseling track and approximately $57 for students admitted to the School Counseling track. (School Counseling students pay a higher fee because of processing through the public school system.) The results will be assessed before advancing students to candidacy. Students will be required to apply for professional affiliations with the American Counseling Association (ACA) for Mental Health Counseling or the American School Counseling Association (ASCA) for School Counseling. Students must provide proof of affiliation and insurance liability coverage within the first quarter of study in the graduate program. Membership applications for the affiliation and insurance programs will be made available in the professional classes offered fall quarter.

Mental Health Counseling Emphasis

The Master of Science in Counselor Education: Mental Health Counseling emphasis is designed for students wishing preparation as counselors or therapists in settings such as: mental health centers, hospitals, residential treatment centers, employment services and vocational rehabilitation services. Mental health counselors are also frequently found in the juvenile correction facilities, community colleges, pastoral services and business and industry.

Classes and experiences are organized around four objectives:
1. a thorough preparation in foundation skills and principles; (2) a functional mastery of techniques in various therapy modes; e.g., cognitive, affective, behavioral; (3) coverage of principles, issues and trends in the psychology of counseling; and (4) self awareness as it relates to the counseling process.

Practical application is stressed. Students are provided early and continuous skill practice with personalized feedback and coaching. Continuous opportunities for expanding awareness of the self of the counselor will be provided.

The program is both extensive and comprehensive. It is nationally accredited by CACREP and fulfills education requirements for licensure for mental health counselors. Graduates will complete the NBCC exam for National Counselor Certification.

Required Courses
Note: successful completion of the National School Psychology Certification Examination and an oral examination that reviews the portfolio project and contents is required.

PSYC 506 Counseling Development and Transition Across the Lifespan (4)
PSYC 520 Tactics of Psychological Research (4)
PSYC 535 Introduction to Mental Health Counseling (4)
PSYC 539 Special Topics (1)
PSYC 542 Career Counseling (4)
PSYC 544 Counseling Theory and Techniques (4)
PSYC 545 Appraisal in Mental Health Counseling (4)
PSYC 548 Counseling Children and Adolescents (4)
PSYC 559 Family Systems and Parent Education (4)

SCHOOL COUNSELING EMPHASIS

The Master of Science in Counselor Education: School Counseling emphasis is designed for students wishing preparation as counselors in school settings, primarily public schools.

Classes and experiences are organized to provide thorough grounding in the skills and knowledge generally recognized by the counseling profession. The program is accredited by CACREP and exceeds the...
Washington state requirement for ESA-School Counselor Certification. Practical application is stressed and students are provided early and continuous skill practice with personalized feedback and coaching. Continuous opportunities for expanding awareness of the role of the counselor will be provided.

Required Courses
Note: Successful completion of the National School Psychology Certification Examination and an oral examination that reviews the portfolio project and contents is required.
PSYC 506 Counseling Development and Transition Across the Lifespan (4)
PSYC 509 Classroom Management for the School Counselor (3)
PSYC 520 Tactics of Psychological Research (4)
PSYC 540 Introduction to School Counseling (4)
PSYC 542 Career Counseling (4)
PSYC 544 Counseling Theory and Techniques (4)
PSYC 547 Assessment in School Counseling (4)
PSYC 548 Counseling Children and Adolescents (4)
PSYC 569 Family Systems and Parent Education (4)
PSYC 575 DSM Treatment Issues for Counselors (4)
PSYC 580 Consultation in the Counseling Profession (2)
PSYC 582 Advanced School Counseling (4)
PSYC 583 Group Experience (1)
PSYC 584 Group Theory (2)
PSYC 585 Group Process in Counseling (2)
PSYC 587 Addictive Behavior Counseling (4)
PSYC 588 Crisis Intervention and Trauma Counseling (4)
PSYC 590 Diversity Counseling (3)
PSYC 594 Advanced School Counseling (2)
PSYC 602 Portofolio (3)
PSYC 694 Practicum (12)
PSYC 697 Internship (15)

Minimum total credits for above master’s degree: 93 credits

MASTER OF SCIENCE IN PSYCHOLOGY

Dennis Anderson, 509.359.2087  danderson2@ewu.edu
Program Director

Admission Requirements/Preparation
Early consideration deadline for completed applications is January 15. All application materials must be received by March 1 for consideration of admission for a fall quarter start. Students applying should follow the procedure for general admission to the EWU Graduate School. In addition, the following requirements should be met:

1. Must meet the requirements of the Graduate School. The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences and other relevant factors;
2. A student is eligible for consideration for admission to the Department of Psychology programs by having obtained a GPA ≥ 3.0 for the last 90 quarter or 60 semester graded credits;
3. Completion and submission of the Graduate Record Examination (GRE) must be accomplished in time for scores to reach the department by the deadline. The department accepts scores on tests taken within five years of application;
4. Must submit department application directly to the Department of Psychology, a vita/résumé, and a statement of intent for admission to the Psychology Graduate Program;
5. Must send three letters of recommendation to the Department of Psychology, preferably all from academic sources;
6. Must have a bachelor’s degree in psychology or its equivalent. Ordinarily, the applicant’s transcript must show evidence of courses in the following areas: scientific principles of psychology, inferential statistics, learning and personality theory, abnormal psychology, life span development, physiological psychology, history and systems in psychology and general/experimental psychology. Accepted applicants whose transcripts are lacking some areas of proficiency may be asked to complete appropriate courses prior to full acceptance to the program;
7. It is expected that a student complete all of the requirements for admission to the Graduate School and the Department of Psychology before registering for core classes.

Students accepted will be notified of a general information meeting held preceding the beginning of their first quarter, to provide orientation to institutional and departmental procedures and to provide information about registration.

Student Learning Outcomes—students will:
- comprehend the discourse of psychology and communicate using the conventions of the discipline;
- be familiar with the historical context in which important theories in psychology were developed;
- develop expertise in the broad science of psychology, including advanced knowledge in research methods, statistics, biological psychology, multicultural issues, history and systems of psychology, and human learning;
- pose research questions and devise research strategies to answer them, including the use of quantitative or qualitative methods;
- gather information from many sources and present persuasive arguments, learn the primary ethical principles of psychologists and recognize basic ethical issues and violations and be guided accordingly.

The Master of Science in Psychology is intended to prepare students to be master’s-level practitioners or to pursue further graduate study in the clinical or experimental areas. A set of core classes provides students in the program with foundational knowledge in the discipline that includes methods classes that impart research and data analysis skills. Obtaining a Master of Science in Psychology ordinarily takes two years, including summer quarter following the first year. Students are admitted to either a clinical or experimental concentration. Beyond the core classes, the clinical concentration provides additional foundational and applied courses that emphasize clinical knowledge and skills. In addition to the core courses, students in the general/experimental concentration design coursework and research experience in consultation with a faculty advisor to match the interest of the students with the expertise of the department faculty.

All students in the program are required to take the following set of core courses.

Required Core:
- PSYC 503 Proseminar: Scientific Methods (4)*
- PSYC 522 Advanced Statistics (3)*
- PSYC 534 Human Neuropsychology (4)*
- PSYC 537 Advanced Psychopathology (4)*
- PSYC 538 Research Topics (1)*
- PSYC 539 Seminar in Special Topics (2) (total)*
- PSYC 600 Thesis (minimum) (6)
- or PSYC 601 Research Report (6)
- PSYC 694 Practicum (16)

Total core credits: 42 credits

CLINICAL CONCENTRATION

The clinical concentration is designed for students who are interested in becoming master’s-level mental health providers in private practice, mental health centers, hospitals or social service agencies, or who are pursuing pre-doctoral studies to support application to doctoral programs in clinical or counseling psychology. All students in the clinical concentration are required to take the following set of courses in addition to the core classes:

Required Core (42 credits)

Required Courses (31 credits)
- PSYC 504 Proseminar: Learning and Behavior Therapy (4)
- PSYC 508 Professional Issues (2)
- PSYC 551 Foundation of Psychotherapy (5)
- PSYC 554 Cognitive Assessment (4)
- PSYC 555 Clinical Practice in Cognitive Assessment (3)
- PSYC 556 Personality and Behavioral Assessment (5)
- PSYC 557 Clinical Practice in Personality and Behavioral Assessment (4)
- PSYC 694 Practicum (4)

Electives (12 credits)

In addition to the above course requirements, students with a clinical emphasis are required to take a minimum of twelve (12) elective credits from courses chosen with an advisor in accord with the following elective course guidelines:
1. 400 level or graduate courses within psychology and related fields
2. specific emphases such as alcohol and drug studies, interdisciplinary aging, diagnosis and treatment of children and adolescents, school psych issues,
behavioral health, psychology of women, computerized research and analysis, positive psychology, business, children’s studies, technical writing, etc.

3. specific courses of interest to the student in related relevant departments (e.g. PSYC, SOWK)

4. EWU weekend college courses

Minimum total credits for master’s degree

85 credits

GENERAL/EXPERIMENTAL CONCENTRATION

The concentration in general/experimental psychology is designed to prepare students for research or teaching in psychology. Methodology and both basic and applied research are emphasized. Students are prepared to enter doctoral programs or to seek employment in appropriate master’s-level positions. Curricular plans, in addition to the 42 credit hours of core courses, should include a minimum of 26 credits of elective courses chosen with an advisor in accord with the elective courses guidelines shown below. Students particularly interested in acquiring college-level instruction skills should consider courses from the Department of Education.

Required Core (42 credits)

Elective Courses (26 credits)

Additional concentration courses are offered within the department and may be taken by students in any program of study. Moreover, with the appropriate Program Director’s approval, the following type of courses may be taken as part of the student’s graduate program of study:

1. 400-level or graduate courses within psychology;
2. specific emphases such as addiction studies, interdisciplinary aging, diagnosis and treatment of children and adolescents, school psychology issues, behavioral health, computerized research and analysis, forensic psychology, physiological psychology, positive psychology or others;
3. specific courses in related relevant departments, PSYC or SOWK with permission of the instructor and program director;
4. EWU weekend college courses.

Minimum total credits for master’s degree

68 credits

Psychology Courses

PSYC 100 General Psychology (5)
Satisfies: GECR for social sciences, list 2, anthropology, geography, psychology and sociology.

A general introduction to psychology as the scientific study of behavior and thought; an overview of the areas of psychology and their development; methods in psychology: biological, sensory and developmental influences on behavior; physiological and cognitive components of behavior; theories of learning; a survey of theories of normal and abnormal behavior; principles of psychotherapy; personality theory and testing; and social influences.

PSYC 190 Risky Behavior (2)
The course will explore, discuss and teach skills that are alternatives for managing risky behavior. Topics that will be covered include decision-making, sexually transmitted infections, sexual assault, alcohol and other drug use, and ways of combating risky behavior including birth control and abstinence, assertiveness and self-management techniques.

PSYC 201 Life Span Development (4)
Satisfies: GECR for social sciences, list 2, anthropology, geography, psychology and sociology.

A broad overview of human development from birth to death. Topics covered include the biological, cognitive, learning, cultural and socio-emotional influences on development. Designed for the non-major.

PSYC 205 Research Methods in Psychology (5) FWS

Prerequisites: CSBS 320, PSY 295.

An introduction to psychological research methods used in psychology. Students complete several research projects reflecting these various methods.

PSYC 295 Internship (1–5)
Prerequisites: permission of the director and the department chair.

Individualized learning and career development through an off-campus internship. An internship agreement-learning contract form is required and can be picked up prior to registration, along with information about placements and procedures from the Career Services Internship Office. Two sections are available, one for psychology majors, one for non-psychology majors.

PSYC 299 Directed Studies (1–6)
Prerequisites: permission of the instructor and the department chair.

PSYC 301 Theories of Personality (5)

An objective and comprehensive study of the major theories of personality.

PSYC 302 Abnormal Psychology (5)
Explores and evaluates research and theoretical concepts relating to deviant and abnormal behavior.

PSYC 303 Foundations of Psychotherapy (5)
Prerequisites: PSYC 301 and PSYC 302.

Survey of theories of psychotherapy dealing with psychopathology. Particular attention is given to effectiveness of theory construction. Evaluates the role of intervening variables and logical consistency.

PSYC 304 Educational Psychology (5)
Prerequisites: PSYC 201 recommended.

Principles of learning and development as applied to improvements in classroom instruction.

PSYC 305 Child and Adolescent Development (4)
Prerequisites: PSYC 201; math proficiency recommended.

Mental, physical, social and emotional development from infancy through adolescence.

PSYC 306 Adult Development (4)
Prerequisites: PSYC 201; math proficiency recommended.

Covers the processes, evidence, theories and socio-cultural influences on adults.

PSYC 307 Psychology of Adjustment (5)
Prerequisites: PSYC 201; math proficiency recommended.

A psychological approach to human behavior, growth and change.

PSYC 309 Scientific Principles of Psychology (5)
Prerequisites: MTH 104.

The study of the methodology and attitudes of psychology irrespective of any special area. Considers techniques for evaluating information, discovering invalid interpretations and uncovering alternative explanations. These are illustrated by reading research articles and classroom discussion of the articles and of popular beliefs.

PSYC 313 Research Methods in Psychology (5) FWS

Prerequisites: CSBS 320, PSYC 205, PSYC 309.

An introduction to typical research methods used in psychology. Students complete several research projects reflecting these various methods.

PSYC 314 Tests and Measurements (5)
Prerequisites: CSBS 320.

This course will provide students with a current analysis of the most widely used psychological tests in schools, professional training programs, business, industry, the military and clinical settings. Students will learn how psychological tests are constructed, how they are used and how an understanding of them can make a difference in their careers and everyday lives. Issues of fairness, bias and social consequences for use and interpretation with diverse populations will be addressed.

PSYC 315 Psychology of Human Relations (4)
Prerequisites: PSYC 201; math proficiency recommended.

Helps develop your understanding and skill in interpersonal relationships needed for professional consultation and/or counseling.

PSYC 316 Human Memory and Cognition (5)
Prerequisites: junior level standing or permission of the instructor.

Examination of the principles and theories of human memory and selected topics in cognitive psychology.

PSYC 317 Health Psychology (5)
Prerequisite: PSYC 309.

An examination of the psychological influences on health including both wellness and illness; a focus on the etiology and correlates of health and illness as well as the prevention and treatment of illness. Exploring the psychological dynamics at work in utilization of the health care system and patient-practitioner interactions. Specific coverage of the illness process in pain, lung disease, stress, chronic illness and AIDS.

PSYC 318 Computerized Research Techniques in Psychology (4)
Prerequisites: CSBS 320, PSYC 309.

Introduces the use of computers in psychological research through software that inexperienced users can program by filling out forms. Hands-on experience on the system will be acquired during the first two-three weeks. Recent experimental findings in a number of research areas will be introduced. Working individually or in small groups, students will select a problem for study and develop a method of investigation using the software system.
PSYC 320 Developmental Theories and Applications (4)
Prerequisites: PSYC 215 or permission of the instructor.
Covers principles and concepts of major theories of human development, evaluation of theories, appreciation of developmental applications and alternative strategies for enhancing development.

PSYC 322 Drugs and Behavior (5)
Prerequisites: PSYC 100 recommended.
An introduction to the action, use, and abuse of psychotropics from analgesics to hallucinogens. Special attention given to drug abuse.

PSYC 324 Conditioning and Learning (4)
Prerequisites: junior standing.
A study of human learning emphasizing conditions for acquisition, learning structures, learning sets, levels of learning and measurement.

PSYC 325 Cognitive and Behavioral Change (4)
Prerequisite: PSYC 100.
This course is designed to examine various cognitive and behavioral change procedures in terms of their theoretical basis and applied strategies. Operant, respondent, social learning and cognitive theories and their applications will be studied. Students will be required to engage in a self-change project throughout the quarter in order to better understand the principles of cognitive and behavioral change.

PSYC 331 Psychology of Women (4)
Cross-listed: WAST 331.
Prerequisite: completion of ENGL 201 or equivalent.
Satisfies: cultural and gender diversity university graduation requirement.
The psychology of women in terms of their bodies, socialization, personality, affiliation and achievement motivations, abnormal behavior patterns, therapy and personal growth needs.

PSYC 338 Discovering Women in Science (1)
Cross-listed: BREC, CHEM GEOR, HIST, PHYS, WMSST 338.
The course uses several scientific themes to rediscover from the past and find in contemporary research the women who have made significant contributions to science.

PSYC 340 Emotion and Emotional Intelligence (5)
Prerequisite: PSYC 100 or equivalent.
This course explores the psychology of emotion and how emotion impacts behavior and experience. This class investigates what emotion is, how it can be measured, basic theories of emotion and what factors contribute to the differences in emotional states. Issues related to emotional intelligence will also be explored, with particular emphasis on emotion identification, understanding and regulation.

PSYC 344 Introduction to the Helping Professions (4)
Prerequisite: PSYC 305, PSYC 315.
This course provides students with an introduction to the helping professions, their specializations, history and ethics issues. Content includes communication skills, block to personal effectiveness and sequential stage model of problem solving for helpers.

PSYC 359 Human Sexuality (5)
Prerequisites: PSYC 355, PSYC 315. Psychological, biological and cultural perspectives of human sexuality and behavior. The basis for successful functioning; frequency and significance of various types of sexual behavior; anatomy and physiology of reproduction; sexual inadequacy and deviations.

PSYC 381 Social Psychology (5)
Prerequisite: PSYC 100 recommended.
Individual behavior as socially determined: interpersonal attraction, aggressiveness, attitude formation, group dynamics, conformity and leadership.

PSYC 395 Internship (1–5)
Prerequisites: permission of the department internship director and the department chair and the university Career Services Internship Office.
Individualized learning and career development through an off-campus internship. An internship agreement-learning contract form is required and can be picked up prior to registration, along with information about placement and procedures from the Career Services Internship office. Two sections are available, one for psychology majors, one for non-psychology majors.

PSYC 398 Seminar (1–5)
Prerequisites:
PSYC 402 Behavior Modification (4)
Prerequisites: PSYC 305, PSYC 324 or permission of the instructor.
Behavior modification provides an in-depth exposure to the principles, concepts and procedures from both the behavioral and cognitive theories as applied to individuals, couples and families, organizational groups and community settings.

PSYC 404 Psychology of the Gifted/ Talented Child (3)
Prerequisite: PSYC 304 or permission of the instructor.
Giftedness and talent from a psychological perspective. Seminar format covers issues of development, measurement, theories, prediction and special needs.

PSYC 417 Pediatric and Adolescent Health Psychology (4)
Prerequisite: PSYC 402 or permission of the instructor.
An examination of health factors affecting developmental outcomes. There will be an emphasis on the health aspects of development and how to maintain and improve health-related behaviors in children and adolescents.

PSYC 420 Biological Basis of Behavior (5)
Prerequisite: PSYC 309.
Organic foundations of behavior.

PSYC 421 Care and Custody of Offenders (5)
Cross-listed: WMSST 421.
Prerequisite: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
This course explores the care and custody of female offenders in the criminal justice system, with particular focus on psychological factors and mental health treatment.

PSYC 425 Psychology and the Legal System (5)
Prerequisite: PSYC 100 or permission of the instructor.
This course is designed to provide an introduction to the field of forensic psychology. The course provides an overview of the role of mental health professionals in correctional settings and in conducting forensic evaluations.

PSYC 427 Psychology of Intimate Relationships (5)
Prerequisite: PSYC 100 and junior standing or permission of instructor.
This course explores how social scientists think about, study, research and treat intimate relationships. Issues of communication, gender, sexual orientation and culture are explored within the context of intimate relationships.

PSYC 430 Human Psychophysiology (5)
Prerequisites: PSYC 355
An overview of the following topics: automatic nervous system, biofeedback, clinical applications, emotion, instrumentation, measurement, pain, psychosomatic processes, sleep, social aspects of physiological processes and stress. Laboratory includes: biofeedback, blood flow, EEG, EDR, EEG, EMG and respiration. Course is especially suited for students of the health sciences.

PSYC 431 Stress and Coping (3)
Prerequisites: PSYC 300, PSYC 302 preferred.
This course presents students with the theoretical background and approach to psychotherapy taken in Compassion Focused Therapy (CFT). CFT is based in evolutionary psychology, affective neuroscience, cognitive-behavior therapy and centuries-old mindfulness and compassion practices. Students learn to understand emotional difficulties and work with them.

PSYC 440 Happiness and Positive Psychology (5)
Prerequisite: junior standing.
Happiness has been a neglected topic in psychology and yet is an important human pursuit. This class investigates what happiness is, how it can be assessed and what factors facilitate happiness. Other human virtues important to well-being such as gratitude, wisdom, courage, humanity, justice, temperance and transcendence are explored.

PSYC 450 Trauma: Theory, Assessment and Treatment (4)
Prerequisite: PSYC 302 recommended.
This class explores traumatic experience in terms of substance, impact and reactions, including the assessment and treatment of trauma-related psychopathology.

PSYC 452 Social Influence (4)
Prerequisite: junior standing or permission of instructor.
This course focuses on topics pertaining to social influence, including persuasion, compliance and obedience. The course covers both intentional and unintentional forms of influence from a psychological perspective.

PSYC 456 Teaching and Skills Training in the Management of Risky Behavior (3)
Prerequisite: PSYC 190.
The course provides guided experiences in developing skills to be a peer-facilitator for PSYC 190. Both knowledge and teaching skills will be explicitly taught and practiced. Such knowledge and skills are necessary for the facilitation of PSYC 190.

PSYC 461 Industrial and Organizational Psychology (5)
Note: Cluster B requirements of Psychology BA.
Prerequisite: junior level standing or higher or instructor permission.
Students apply psychological principles and methods to the workplace, including employee selection, motivation, performance and behavior; the structure and function of occupational positions and activities; and the nature, processes and development of organizations.

PSYC 470 Childhood Psychopathology and Treatment (5)
Prerequisite: junior standing.
This course focuses on psychopathological disorders of childhood and adolescence, critically attending to normal and abnormal developmental sequences. Attention is given to the diagnosis and implications of such disorders and to clinical intervention methods.
PSYC 474  Cultural Psychology (5)
Prerequisite: PSYC 100
Satisfies: international studies university graduation requirement.

This course investigates the literature and methods involved in the psychological study of people from different cultures—both subcultures within the US and peoples from around the world. It also addresses the question of universality of psychological phenomena.

PSYC 476  Child and Family Guidance (4)
Prerequisites: PSYC 305, PSYC 324 or permission of the instructor.

The interaction between parents and children, the development and socialization of the child within the family and the relationship of the family to the school and community from a developmental perspective. Approaches to child rearing, management, discipline and communication for parents, teachers and other child care personnel are presented. Also examines family social support functions and considers multicultural issues in child socialization and guidance. Appropriate for present and future parents, teachers and child care personnel.

PSYC 481  Prejudice and Stereotyping (5)
Prerequisite: PSYC 381 or instructor permission.

The course Prejudice and Stereotyping is a 5 credit discussion course that examines the social psychological underpinnings of prejudice, stereotyping and discrimination. The course topics will address specific types of prejudice such as sexism and racism, individual differences and cognitive states that can lead to prejudice, the effect of prejudice on its targets and reducing prejudice.

PSYC 483  Group Dynamics (5)
Prerequisites: PSYC 315, PSYC 344 or permission of the instructor.

Introduces the principles formed through the scientific study of small-group dynamics and considers issues and problems arising in the study of groups.

PSYC 484  Child Abuse: Recognition and Intervention Strategies (3)

This course will focus on recognition of abuse in children and specific intervention strategies for their social/emotional needs. Physical, emotional and sexual abuse will be addressed along with factors of recognition for each of these areas of abuse. Specific common indicators of abuse will be looked at as it relates to the impact on the social, emotional, cognitive and behavioral realm of children.

PSYC 485  ADD/ADHD in the Schools (3)

This course will provide the skills needed to help minimize the everyday struggles encountered while working with difficult behaviors. Areas to be addressed include characteristics of AD/HD, common treatment approaches, myths about AD/HD and matching interventions to behaviors.

PSYC 490  Senior Capstone: The Tradition of Psychology (6)
Prerequisites: PSYC 305, PSYC 315, PSYS 309 and PSYC 313.
Satisfies: senior capstone university graduation requirement.

This course fulfills the university capstone requirement and may also be used as an elective within the department's major. The course consists of three components: (a) the history of psychology, (b) a collaborative project and (c) portfolio preparation.

PSYC 490A  Senior Capstone: Developmental Psychology Senior Seminar (4)
Satisfies: senior capstone university graduation requirement.

The course is designed to help students make the transition from the academic world to the world of work and civic life or to a higher level of academic achievement. The primary goal for the student's successful transition will be accomplished via the process of application. The course is designed also as an end-of-program assessment tool. The basic assumption is that the developmental coursework has equipped the students with the knowledge of developmental theories, counseling strategies, research methods and assessment procedures. This capstone will test the student's ability to apply the course work to real-world situations. The course objectives are organized to facilitate the process of application.

PSYC 490B  Senior Capstone: Minds and Vines: Psychology of Wine (4)
Prerequisite: senior standing; 21 years of age and declared major.
Satisfies: senior capstone university graduation requirement (replaces ITGS 400 as a senior capstone experience).

Directed research resulting in a formal write-up. Limited to those students for whom research experience will be helpful in obtaining entrance to graduate school.

PSYC 492  Field Study in Child Issues and Problems (4)
Prerequisite: PSYC 305, 324 some senior, major courses and faculty advisement.

This course introduces students to professional human service settings through shadowing a professional in the community. Students are expected to enroll in this course over two consecutive quarters.

PSYC 493  Field Study in Adolescent Issues and Problems (4)
Prerequisite: PSYC 305, 324 some senior, major courses and faculty advisement.

This course introduces students to professional human service settings through shadowing a professional in the community. Students are expected to enroll in this course over two consecutive quarters.

PSYC 494  Field Study in Adult Issues and Problems (4)
Prerequisites: PSYC 305, 324 some senior, major courses and faculty advisement.

This course introduces students to professional human service settings through shadowing a professional in the community. Students are expected to enroll in this course over two consecutive quarters.

PSYC 495  Internship (1–15)
Prerequisite: permission of the instructor, department chair and college dean.

Individualized learning and career development through an off-campus internship. An internship agreement-learning contract form is required and can be picked up prior to registration, along with information about placements and procedures from the Career Services Internship Office. Two sections are available, one for psychology majors and one for non-psychology majors.

PSYC 496  Experimental Course (1–5)

PSYC 497  Workshops, Short Courses, Conferences (1–5)

PSYC 498  Seminar (1–5)

PSYC 499  Directed Study (1–5)
Prerequisites: permission of the instructor and the department chair.

PSYC 503  Proseminar: Scientific Methods (4)
Prerequisites: admission into psychology MS program or school psychology program or graduate standing and instructor permission.

Introduction to logic of scientific method, decision making, hypothesis testing, measurement and model and theory construction.

PSYC 504  Proseminar: Learning and Behavior Therapy (4)
Prerequisites: graduate standing.

An intensive survey of important learning phenomena as they relate to the theoretical issues and controversies. Consideration of methodological problems.

PSYC 505  Applied Learning Theory and Behavior Modification (4)

Applied learning theory, methodology and research paradigms will be defined and their inter-theory, inter-subject, inter-problem-solving relationships demonstrated.

PSYC 506  Counseling Development and Transition Across the Lifespan (4)
Prerequisite: admission to the graduate counseling program: mental health or school counseling emphasis or permission of the instructor.

Major theories of human development, the nature and needs of individuals at all developmental levels and the counseling implications associated with developmental processes are covered.

PSYC 507  Human Development: Research, Theories and Applications (4)
Prerequisite: Graduate standing in psychology. If from a related area, instructor permission is required.

An examination of the field of human development and the contribution of those findings to professional practice. The philosophical and empirical basis for the theories explaining human development will be explored. The course will focus on the criteria that determine the adequacy of a theory and the applications generated by particular theories. Application and interpretation of research according to contemporary, empirically-based theories, and emerging issues and approaches will be key components of the course.

PSYC 508  Professional Issues (2)
Prerequisites: admission into psychology MS program.

This course presents legal, ethical and moral aspects of the professional practice of psychology. Topics will include professional credentialing, registration and licensing; ethical principles of psychological professionals; confidentiality; disclosure to clients; duty to protect and warn; suicide risk assessment; and other ethical dilemmas. Students will receive state- required AIDS/HIV training.

PSYC 509  Classroom Management for the School Counselor (3)
Prerequisite: admission to the graduate counseling program, school counseling emphasis.

This course will provide an understanding of the role of the counselor in managing classroom behavior, including how to establish positive counselor-student relationships and peer relationships that help meet students' basic psychological needs while building a community of support within the classroom.
PSYC 510 Professional School Psychology I (4)
Prerequisite: admission to the graduate program in school psychology.
This course is the first in a series of professional school psychology courses that focus on the history and principles of school psychology, the professional role of the school psychologist, and current trends in education. The course includes various pre-practicum observations in applied settings.

PSYC 511 Professional School Psychology II (4)
Prerequisite: PSYC 510, PSYC 512.
This course focuses on the impact of legal issues on the roles and functions of school psychologists in Washington.

PSYC 512 Professional School Psychology III (4)
Prerequisite: PSYC 510, PSYC 512.
This course is the third in a series of professional school psychology courses that focus on professional practice and ethical issues in the field. Best practices in school psychology and considerations of NASP, AERA and APA ethical guidelines and codes of conduct will be covered. The course includes pre-practicum observations in applied settings.

PSYC 514 Research and Statistics (4)
Prerequisite: accepted to psychology graduate program.
In this course, students will learn the basic principles of research methods (both group and small n) and statistics used in school psychology. Our focus will be on evaluating existing research and applying the principles of scientific methodology to the field.

PSYC 515 Advanced Educational Psychology (4)
The relevance of psychological theory to educational practice as applied to teaching, learning, development, and evaluation.

PSYC 516 Human Memory and Cognition (5)
Prerequisite: PSYC 510, PSYC 512.
Examination of the principles and theories of human memory and selected topics in cognitive psychology.

PSYC 517 Health Psychology (5)
Prerequisite: enrollment in school psychology program.
An introduction to the theory and practice of health psychology. The course will emphasize the role of health professionals in correctional settings and conducting forensic evaluations.

PSYC 518 Computerized Research Techniques in Psychology (4)
Prerequisite: CSPA or equivalent.
This course is intended to provide graduate students in psychology and allied disciplines with an efficient method of presenting stimuli and gathering data using personal computers. The class introduces the MEL programming system by which users can prepare programs by filling out forms and supplementing the forms with MEL code. Demonstrations and class exercises will apply the programming techniques to carry out various psychological tasks. Students will select a problem for individual study and develop a method of investigation using the software system.

PSYC 520 Tactics of Psychological Research (4)
Prerequisite: admission to graduate program or permission of instructor.
A critical analysis of research methodologies in psychology. Emphasis is placed on developing student skills in asking and answering research questions.

PSYC 521 Care and Custody of Female Offenders (5)
Prerequisite: graduate standing.
This course explores the care and custody of female offenders in the criminal justice system, with particular focus on psychological factors and mental health treatment.

PSYC 522 Advanced Statistics (5)
Prerequisite: PSYC 520 or other inferential statistics course.
Statistical theory, data interpretations and procedures which are especially valuable to workers in education, psychology and related fields.

PSYC 523 Academic and Social/Behavioral Interventions (4)
Prerequisite: admission to the graduate program in school psychology.
This course will assist students in understanding the link between assessment and intervention. School-wide Academic and Behavioral Assessment and Interventions, supplemental programs and intensive interventions will be addressed. Students will gain knowledge regarding early intervention, prevention and evidenced based academic and behavioral programs within Pre K–12 schools.

PSYC 525 Psychology and the Legal System (5)
This course is designed to provide an introduction to the field of forensic psychology. The course provides an overview of the role of mental health professionals in correctional settings and in conducting forensic evaluations.

PSYC 526 Academic Assessment for School Psychology (4)
Prerequisite: enrollment in school psychology program.
An in-depth review of the purpose and methods of academic assessment in school psychology practice. The course focuses on the administration of various academic assessments and interpretation of the scores obtained from the instruments for use in making data-based decisions. Special attention will be given to the applicability of assessments to diverse student populations.

PSYC 530 School Counselor ProCert Culinating Seminar (3)
Prerequisite: admitted to the school counselor professional certificate program.
Spring quarter. Candidates will complete the school year’s work on their professional growth plan that will culminate with a panel presentation and a completed portfolio. The presentation will highlight the school year’s work on Standard Six. The entire professional growth plan portfolio will also be evaluated.

PSYC 531 Psychoeducational Groups for Children and Adolescents (4)
Prerequisite: admission to the graduate program in school psychology or permission of instructor.
This course examines the theory, assessment, and application of different types of psychoeducational groups for children and adolescents. The course will address the role of cultural diversity and ethnic differences in education. The course will include the integration of individual and group interventions.

PSYC 532 Advanced Research and Statistics (4)
Prerequisite: accepted to psychology graduate program.
In this course, students will learn the basics of research design and analysis for the behavioral sciences. They will be covering concepts, applications techniques for designing and evaluating research studies for both field and labo- ratory research.

PSYC 533 Advanced Research and Statistics II (4)
Prerequisite: accepted to psychology graduate program.
In this course, students will continue to learn the basics of research design and analysis for the behavioral sciences. This course will cover the theory and process of providing individual and group interventions to children and adolescents in the schools. Particular attention will be paid to ethical issues and the importance of providing culturally sensitive interventions.

PSYC 534 Human Neuropsychology (4)
Prerequisite: admission to psychology MS program or school psychology program or instructor permission.
The relationships between physiological processes and behavior.

PSYC 535 Introduction to Mental Health Counseling (4)
Prerequisite: admission to the graduate counseling program: mental health counseling emphasis.
An introduction to the profession of mental health counseling. The course will emphasize historical, philosophical, professional, ethical, and public policy perspectives. The focus is on the role of the counselor and the client.

PSYC 537 Advanced Psychopathology (4)
Prerequisite: admission into psychology MS program or graduate standing and instructor permission.
This course is designed to teach strategies in diagnosing mental disorders and to evaluate the most current treatment modalities. Problems of cultural diversity and ethnic differences are explored.

PSYC 538 Research Topics (1–5)
Note: graded Pass/No Credit.
Prerequisite: admission to the Psychology Department’s MS program.
This course introduces incoming graduate students in the Psychology Department’s MS program to research interests of the department faculty. Lectures cover theory and previous work on problems of interest, design of recent experimental investigations and analysis of experimental data. Students participate in discussions with lectures and develop their own research interests through meetings with selected faculty.

PSYC 539 Seminar in Special Topics (1–5)
Note: graded Pass/No Credit.
Prerequisite: admission to the graduate program: school counseling emphasis or permission of instructor.
The development of the school counseling profession; counseling functions within systems; the structure and management of school counseling programs. CACREP standards and PESB standards for School Counselors.

PSYC 542 Career Counseling (4)
Prerequisites: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.
Career development theory; educational and vocational information; career decision-making processes; components of school or community career programs.

PSYC 543 School-Based Individual Interventions (4)
Prerequisites: admission to the graduate program in school psychology.
A general introduction to the theory and process of providing individual and group interventions to children and adolescents in the schools. Particular attention will be paid to ethical issues and the importance of providing culturally sensitive interventions.
PSYC 544 Counseling Theory and Techniques (4)
An introduction to principles of counseling and a survey of contemporary theories and techniques.

PSYC 545 Appraisal in Mental Health Counseling (4)
Prerequisites: admission to the graduate program; mental health counseling emphasis or permission of instructor.
The administration, scoring and interpretation of standardized tests in the mental health counseling profession. Includes a focus on testing ethics, sources of testing bias and diversity issues in assessment, as well as the use of interview/assessment/mental status exam and psychological testing for treatment planning.

PSYC 546 PSYCHOLOGY (4)
This course investigates the literature and methods involved in the psychological study of people from different cultures—both subcultures within the US and peoples from around the world. It also addresses the question of universality of psychological phenomenon. Graduate students focus particularly on how these findings apply within their graduate field of study.

PSYC 547 Assessment in School Counseling (4)
Prerequisites: admission to the graduate program; school counseling emphasis or permission of instructor.
The use of assessment techniques in the school counseling setting, including standardized instruments, sand play and observation. Includes a focus on testing ethics, sources of testing bias, diversity issues, implications of high stakes testing and effective use of assessment in counseling outcomes.

PSYC 548 Counseling Children and Adolescents (4)
Prerequisites: admission to the graduate program; mental health or school counseling emphasis or permission of instructor.
Counseling principles and techniques as applied to children and adolescents will be presented and analyzed.

PSYC 549 Trauma: Theory, Assessment and Treatment (4)
Prerequisite: undergraduate degree in psychology or related field.
This class explores traumatic experience in terms of substance, impact and reactions, including the assessment and treatment of trauma-related psychopathology.

PSYC 550 Foundation of Psychotherapy (5)
Prerequisite: admission into psychology MS program with clinical emphasis or instructor permission.
Main types of psychological treatment with emphasis upon those which primarily rely on verbal exchanges between the counselee and the therapist. Practical application of techniques will be experienced.

PSYC 551 Social, Emotional and Behavioral Assessment of Children and Adolescents (4)
Prerequisite: admission to a psychology graduate program.
Students learn assessment techniques to examine social, emotional and behavioral functioning in children and adolescents. A problem solving approach is utilized with training in reviewing, interviewing, observing and testing children. Major tests considered and applied within this course include broad rating scales such as the Achenbach and BASC systems and narrow rating scales utilized to diagnose more specific disorders.

PSYC 552 Cognitive Assessment (4)
Prerequisite: admission to psychology MS program.
This course will provide in-depth training in cognitive assessment, including intelligence, memory, academic and special abilities testing.

PSYC 553 Clinical Practice in Cognitive Assessment (3)
Prerequisite: admission to psychology MS program with clinical emphasis.
Administration, scoring and writing of psychological reports; Stanford-Binet, WISC and WAIS.

PSYC 554 Personality and Behavioral Assessment (5)
Prerequisite: admission to psychology MS program or school psychology program.
This course focuses on assessment techniques utilized to examine emotional and behavioral functioning in children and adolescents. A problem solving approach is utilized with training in reviewing, interviewing, observing, and testing children. Major tests considered and applied within this course include broad rating scales such as the Achenbach and BASC systems and narrow rating scales utilized to diagnose more specific disorders.

PSYC 555 PSYCHOLOGY (4)
Prerequisite: admission to the graduate program in psychology.
This course focuses on psychopathological disorders of childhood and adolescence, critically attending to normal and abnormal developmental sequences. Attention is given to the diagnosis and implications of such disorders and to clinical and educational intervention methods.

PSYC 556 Developmental Psychopathology and Clinical Neuroscience I (4)
This is the first course in a two-quarter sequence of instruction that focuses on describing and understanding psychopathological disorders of childhood and adolescence. A critical emphasis is placed on the neurobiological influences that underlie typical and atypical developmental sequences. Attention is also given to the diagnosis and implications of such disorders and to clinical and educational intervention methods.

PSYC 557 Developmental Psychopathology and Clinical Neuroscience II (4)
This is the second course in a two-quarter sequence of instruction that focuses on describing and understanding psychopathological disorders of childhood and adolescence. A critical emphasis is placed on the neurobiological influences that underlie typical and atypical developmental sequences. Attention is also given to the diagnosis and implications of such disorders and to clinical and educational intervention methods.

PSYC 558 School Psychology Practicum (1–8)
Prerequisites: admission to the graduate program; school psychology emphasis or permission of instructor.

PSYC 559 School Psychology Consultation (1–3)
Prerequisite: admission to the graduate program in psychology.
This course focuses on the history and principles of collaborative consultation and their application within the school setting. While traditional models of consultation are taught (organizational, behavioral and mental health), this course explores the key components of developing healthy family-school relationships and requires students to work with parents and teachers through Joint Consultation. Consultation with systems as a preventive strategy is also emphasized and students complete a school-wide analysis project.

PSYC 560 Industrial and Organizational Psychology (5)
Prerequisite: graduate standing.
This course surveys the application of psychological principles and methods of work. It includes employee selection, motivation, performance and behavior; the structure and function of occupational positions and activities; and the nature, processes and development of organizations.

PSYC 561 Developmental Psychology (4)
This course focuses on psychopathological disorders of childhood and adolescence, critically attending to normal and broad rating scale developmental sequences. Attention is given to the diagnosis and implications of such disorders and to clinical and educational intervention methods.
PSYC 576 **Professional Issues in Mental Health Counseling (3)**
Prerequisites: successful completion of two quarters of mental health counseling internship in the graduate counseling program: mental health emphasis.

This course provides students an opportunity to transition from the role of a counselor in training to a beginning professional in the field of mental health counseling. Topics will include advocacy, post-graduate credentials, supervision, managed health care systems, agency and private practice and organizational change. An emphasis will be placed on professional identity and roles.

PSYC 579 **Advanced Diagnostic Assessment (4)**

This course is an advanced assessment course that prepares candidates for diagnosis and classification in accordance with multiple theories existing in the clinical and educational research. Students utilize cognitive, academic, and social/emotional data in developing hypotheses regarding the presence of learning and social-emotional disability and in planning for intervention delivery. The course emphasizes the complex variables of culture, environment and language in making inferences regarding the presence of a disability.

PSYC 580 **Consultation in the Counseling Profession (2)**
Prerequisites: advanced standing (2nd year) in graduate counseling: mental health or school counseling emphasis, graduate social work, or graduate school psychology programs or permission of instructor.

Application of psychological skills to organizations and systems; systems analysis and interventions; case consultation; peer consultation and consultation with other human service professionals. Includes information on team building, conflict resolution, and the counselor’s role as a systems change agent.

PSYC 581 **Prejudice and Stereotyping (5)**
Prerequisite: PSYC 381 or instructor permission.

This course examines the social psychological underpinnings of prejudice, stereotyping and discrimination. The course topics will address specific types of prejudice such as sexism and racism, individual differences and cognitive states that can lead to prejudice, the effect of prejudice on its targets and reducing prejudice.

PSYC 582 **Advanced School Counseling (4)**
Prerequisite: admission to the graduate counseling program, school counseling emphasis.

This course prepares students with an understanding of the comprehensive school counseling model. Students will learn how to convey themselves as a professional school counselor and to create documents that will enable them to collaborate with other school professionals and those in K-12 students lives.

PSYC 583 **Group Experience (1)**
Prerequisites: admission to the graduate counseling program: mental health or school counseling emphasis or permission of the instructor.

This class will provide a group process experience for first year students in mental health and school counseling emphasis.

PSYC 584 **Group Theory (2)**
Prerequisite: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.

Factors that lead to group change, membership, goals, productivity and organization.

PSYC 585 **Group Process in Counseling (2)**
Prerequisite: successful completion of PSYC 584 or permission of instructor.

Students will participate in and practice serving as facilitators of groups.

PSYC 587 **Addictive Behavior Counseling (4)**
Prerequisites: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.

Graduate course of theory and pragmatics in addictive behavior counseling that documents the personal, social and cultural impact of addiction. The course is designed for those with a specific interest in the nature and treatment of addictive behaviors and students preparing for careers in the helping professions. The course presents an integrated overview of modern research and intervention approaches. A variety of viewpoints, theories and treatment approaches will be introduced.

PSYC 588 **Crisis Intervention and Trauma Counseling (4)**
Prerequisite: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.

This course is designed to provide students with an overview of the theory, impact, issues and skills of crisis counseling due to traumatic events such as: violence, child abuse, mass casualty events and suicide ideation, as well as the nature, causes and symptoms of professional burnout for crisis workers. The course will examine models for working with children and adolescents, working with victims of violence, suicide prevention, issues of health-related school and mental health crises and the ethical, legal and diversity factors of crisis intervention.

PSYC 590 **Diversity Counseling (3)**
Prerequisite: admission to the graduate counseling program: mental health or school counseling emphasis or permission of instructor.

This course will introduce students to a broad spectrum of issues of diversity in counseling, including an examination of their own personal history/background and its impact on their perception of and response to diversity in clients. In this class, the term diversity includes differences in racial and ethnic origins, gender, ability, physicality, belief systems, socio-economic status, sexual orientation, developmental stage and variability of intellectual functioning.

PSYC 592 **Suicide Assessment and Treatment (1)**
Prerequisite: Admission to the Counselor Education program, or instructor permission. Undergraduate enrollment with instructor permission.

This course provides an overview of suicide risk and protective factors. Outlines a working assessment framework to assign risk as well as intervention techniques and best practices, including referral when needed.

PSYC 594 **Professional Issues in School Counseling (2)**
Prerequisites: admission to the graduate counseling program: school counseling emphasis.

This course provides information and experiences to enable the student to transition from the role of counselor in training to that of a professional in the field of school counseling. Topics include advocacy, management of school counseling services and programs, professional identity. Students contribute to the topics surveyed in this course based on experiences in the program.

PSYC 651 **Advanced Psychotherapy Strategies (3)**
Prerequisites: admission into the psychology MS program with clinical emphasis or instructor permission, PSYC 351.

Advanced techniques and strategies of psychological treatment. Techniques reviewed could include compassion focused therapy, solution focused therapy, brief therapeutic strategies, dialectical behavior therapy and/or other therapeutic strategies used in the field. Practical application of techniques will be experienced.

PSYC 596 **Experimental Course (1–5)**
Note: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

PSYC 597 **Workshops (1–5)**
Note: may be graded Pass/No Credit.

PSYC 598 **Seminar (1–5)**
Prerequisite: permission of the department chair.

A bound research study conducted as partial fulfillment of a master’s under the direction of a graduate committee.

Prerequisite: permission of the department chair and the graduate research chair and college dean.

A research study in lieu of a bound thesis conducted as partial fulfillment of a master’s under the direction of a graduate committee.

PSYC 602 **School Psychology Portfolio (1–6)**
Prerequisite: admission to school psychology program.

Students prepare reflections and evidence to document their knowledge and competence in the NASP standards for training and practice. An informal presentation of the portfolio is provided at the end of the second year of the program to document readiness for the internship experience. In the third year of the program, students provide a formal presentation as a culminating experience in the program.

PSYC 694 **Pacticum (1–8)**
Prerequisite: permission of the instructor and the college dean.

Teaching a lower-division course under the supervision of a regular faculty member. Includes course planning, arranging bibliographical and other instructional aids, conferences with students, experience in classroom instruction and student and course evaluation.

PSYC 695 **Internship in School Psychology (1–6)**
Note: may be graded Pass/No Credit.
Prerequisite: permission of the instructor and the department chair.

Teaching a lower-division college course under the supervision of a regular faculty member. Includes course planning, arranging bibliographical and other instructional aids, conferences with students, experience in classroom instruction and student and course evaluation.

PSYC 697 **Internship in Psychology (1–10)**
Prerequisite: permission of the instructor, department chair and college dean.

Internship experience of professionally supervised training in approved agency or institution. The period of internship will commence on the date it is approved by the department chair and no internship credit will be granted retroactively.
