

The Inland Empire Fly Fishing Club Legacy Scholarship - \$1000
Priority given to Biology majors studying or considering a career in fisheries

The Inland Empire Fly Fishing Club was organized in 1956. Members come from all walks of life with one purpose in mind—to assure the citizens of Eastern Washington and North Idaho that there will always be fishable waters for them to enjoy. The Inland Empire Fly Fishing Club stands ever ready to assist our partners in those projects necessary to keep our fisheries viable, while also assisting to provide access and training to individuals, young and old, who are interested in participating in the sport of fly fishing.

With proceeds derived from the sale of members' fishing related gear and from the Club's general conservation fund, the Inland Empire Fly Fishing Club and its Legacy Committee establishes this scholarship to partner with Eastern Washington University and the fisheries biology program to provide an annual scholarship of \$1,000 for an outstanding student who plans to work in fisheries management after graduation.

Eligibility

Biology or Environmental Science majors with junior or senior standing.

Preference will be given to biology majors studying or considering a career in fisheries.

Demonstrated financial need may be considered.

Minimum GPA > 3.0

Students may apply for and receive the scholarship more than once. However, receiving the scholarship in one year does not guarantee that it will be received with a second application.

To apply, please fill out the information below and answer the questions that follow. In addition, submit two letters of recommendation.

Name:

Major:

By signing below, I give members of the Biology Scholarship Committee to access my EWU GPA on Eaglenet: _____

Address the following questions.

A. Briefly describe your short-term and long-term career goals. (250 word maximum)

The stated mission of the Inland Empire Fly Fishing Club (IEFFC) is *to assure the citizens of Eastern Washington and North Idaho that there will always be fishable waters for them to enjoy.*

B. Briefly describe your past and current activities that are related to the mission of IEFFC.

C. Briefly describe one challenge that the club may face (either currently or in the future) as it strives to achieve its stated mission and describe how you might contribute to the IEFFC and other similar entities in assuring the continued availability of fishable waters.

Completed application and letters of recommendation should be submitted by E-mail to

Professor Andrea Castillo acastillo@ewu.edu

In the subject line place your last name and first initial followed by IEFFC e.g. SmithJ_IEFFC

Deadline for completed applications is **Monday November 15th**.
